

KENYAN PROPTech

STAYHUB

Your Home-Caring Partner

Making it easier to find, secure and manage a home in a new location.

Housing Discovery | Digital Payments | AI

Presented by: Erick Mburu & Team

THE PROBLEM

Relocating shouldn't mean starting with uncertainty.

People moving to a new area often struggle to:

FIND

Available houses without travelling from place to place.

TRUST

Whether property information and listings are genuine.

UNDERSTAND

The local housing options, prices and locations.

MANAGE

Rent, bills and payments after moving in.

The result? More time. More uncertainty. More unnecessary movement.

THE SOLUTION

Meet StayHub

A digital housing platform that connects people with homes while simplifying the entire tenant journey.

DISCOVER

Find houses based on location and preferences.

VERIFY

Identify trusted and verified options.

CHOOSE

Compare properties and make informed decisions.

MANAGE

Track rent, bills and payments from one dashboard.

GET HELP

Use the StayHub AI Assistant whenever guidance is needed.

From finding a home to managing it, StayHub brings the journey together.

PRODUCT

The StayHub tenant experience

01 SEARCH

Location, budget, preferences.

02 DISCOVER

Browse houses in a clean interface.

03 COMPARE

Review properties side by side.

04 CONNECT

Talk to property providers.

05 MANAGE

Rent, bills and payment history.

Tenant dashboard + payments

AI Assistant

Navigate, search, explain and assist: "You don't have to figure it out alone."

TARGET MARKET

Start where the problem is strongest.

OUR INITIAL FOCUS: Rural-urban areas + growing Kenyan towns

STUDENTS

Moving for education.

WORKERS

Relocating for employment.

FAMILIES

Moving into new communities.

PROPERTY PROVIDERS

Looking for reliable tenants.

Existing platforms demonstrate demand for digital property discovery. StayHub's opportunity is to differentiate through the end-to-end experience.

DISCOVERY + VERIFICATION + AI + PAYMENTS + MANAGEMENT

MARKET SIZE

Kenya's rental market is large; we start in one town

TAM: KENYA

~2.5M urban rental households

Estimate: about 14.7M urban residents, 4.6 people per household, 79% renting.

SAM: NYAHURURU PILOT

~8,000 rental households

Estimate: about 36,450 urban residents, 3.6 people per household, 79% renting.

SOM: 12 MONTHS

1,000 tenants (about 12% of SAM)

At about KES 8,500 rent and 2% commission: KES 170 a month each, about KES 2.0M a year.

Typical one-bedroom rent in Nyahururu is about KES 7,000 to 10,000 (cost-of-living estimate). Our pilot survey will confirm local rents. Next towns expand the SAM.

Sources: KNBS 2019 Census and Nyandarua County Fact Sheets (CRA); KIPPRA via ONE.org (rental share); REALL (household size); Wikipedia (Nyahururu urban population); citycost.org (rent). Estimates, to be validated.

COMPETITORS

Others list homes. StayHub manages the whole tenant journey.

Capability	StayHub	BuyRentKenya	Jiji
Housing discovery	MVP	Yes	Yes
Listing verification	Planned	Verified agencies	Verified sellers filter
Rent and bill payments	Planned	Not seen	Not seen
AI assistant	Planned	Not seen	Not seen
Tenant dashboard	Planned	Not seen	Not seen
Starting focus	Secondary towns	National listings	National classifieds

Based on public websites, October 2026. Competitors may add features, so re-check before pitching.

COMPETITIVE ADVANTAGE

Differentiating through the end-to-end experience

DISCOVERY

Find homes by location and preferences.

VERIFICATION

Trusted, verified options.

AI

Guidance throughout the journey.

PAYMENTS

Rent and bills in one place.

MANAGEMENT

Tenant and property tools.

Built by people who lived the problem, with a focus on growing Kenyan towns.

DISCOVERY + VERIFICATION + AI + PAYMENTS + MANAGEMENT

TRACTION & ROADMAP

From validation in Nyahururu to more towns

VALIDATION PLAN: NEXT 60 DAYS

Interview 50 tenants and 15 landlords or agents in Nyahururu. Collect 100 local rent data points. Sign 10 listing partners.

BUSINESS MODEL

Freemium + Transaction-Based Model

TENANTS: FREE

Basic access

- Browse properties
- Search & filtering
- Basic platform access
- Basic AI assistance

TENANTS: VERIFIED

Premium

- Verified tenant profile
- Enhanced platform features
- Additional trust and service benefits

PROPERTY PROVIDERS

Potential services

- Property listings
- Property verification
- Tenant management
- Payment management
- Dashboard & reporting

REVENUE

Streams

- 2% transaction commission
- Premium / verification services
- Property & platform services

Multiple revenue streams. One connected ecosystem.

GO TO MARKET

Launch in Nyahururu, then repeat

1. PILOT

Nyahururu

A growing town where people move for work, school and family.

2. SUPPLY

Sign local agents and landlords

Verify each listing before it goes live.

3. DEMAND

Reach students, workers and families

Through colleges, employers and local social channels.

4. EXPAND

Add the next towns

Once the pilot targets are met.

12-month pilot targets: 100 verified listings, 1,000 tenants, rent payments live.

OUR ASK

KES 5M to launch StayHub in Nyahururu

12 months of runway, about KES 417,000 a month

PRODUCT & AI

KES 0.5M

Legal, support, reserve

What it delivers: MVP live in Nyahururu, 100 verified listings, 1,000 tenants and a rent payments pilot. Also seeking mentors, agent partners and introductions in Nyahururu.

Allocation is a proposal and can be adjusted as the pilot plan firms up.

THE TEAM

"I have experienced the problem myself."

Relocating showed me how hard it is to find a home in an unfamiliar place, and colleagues and other Kenyans face the same challenge. We asked **"How can we make it easier?"** That's where StayHub began.

Erick Mburu, Founder & Team

STAYHUB: Find. Verify. Move. Manage. Thank you.
